SENATE BILL 304 COMMITTEE REPORT

The Senate Bill 304 Study Committee was charged with studying the role of the State Compensation Insurance Fund and whether it was cost effective and in the best interest of the state, Montana employees and Montana employers to sell all or a portion of the State Compensation Insurance Fund assets and liabilities and to create an assigned risk pool. The committee was charged with making separate determinations in regards to the Old Fund and the New Fund. The committee is to report to the 59th legislature on the determinations made in the study. The committee shall prepare any necessary legislation as part of the report to implement a recommended sale.

Following are the motions acted upon by the committee, which suggest actions that the legislature and Governor may wish to consider. Motions and dates voted on are shown.

Ms. Lenmark made a substitute motion that the committee request the SB 304 staff to prepare for the committee an inventory of all adverse development protection mechanisms, which includes specific costs and result projections. Those mechanisms could include, but not be limited to; an RFP for sale, loss portfolio transfers, reinsurance and other mechanisms to enable the committee to make a specific recommendation regarding the status of the Old Fund to the 2005 legislature.
